Total New England Vote Was

GRAY SENDS BEST WISHES

James E. Burke Is on the Committee

Bryan.

Denver, July 11.—Massachusetts gave Bryan all her votes—32 of them. Col. Sweeney, chairman of the delegation, did it with a flourish. New Hampshire gave Bryan seven, Johnson one. Connecticut gave Bryan nine, Johnson five. Rhode Island gave Bryan five, Johnson three. New England states combined voted Bryan 70, Johnson 10.

Maine and Vermont each recorded a refusal to vote on the part of a delegate. These two were the only ones in the hall who would not let the world into the secret of where they stood. People asked: "What did they come out here for?" "These two men will each have traveled 4,000 miles before getting back home again."

Gray Transmits Best Wishes to Bryan.

Winnington, Del., July 11.—Upon being informed of the nomination of Mr. Bryan for president yesterday morning, Judge George Gray immediately sent the following telegram:

"Hon. William J. Bryan, Lincoln, Neb. Accept my hearty congratulations."

"George Gray."

Judge Gray declined to make any comment on the action of the convention, but it was evident that it was no personal disappointment to him. While the judge has been advocated for the presidential nomination by his friends for the past six months, he has had no part in this work and all that was done in his behalf was without his sanction. There is no doubt, however, that if he

In an interview with Judge Gray it
was learned that while repeated efforts
have been made to induce him to accept

these efforts have been unavailing. He
said that he had not changed his mind

DR. WILSON MURDERED BY AN UNKNOWN PERSON.

Verdict of Coroner's Jury in Philadel-
phia Poison Mystery.

Philadelphia, July 11.—The coroner's
jury yesterday returned a verdict that
Dr. Wilson came to his death from
cyanide of potassium poisoning at the
hands of an unknown person.

Mrs. Wilson testified that her husband
had had a quarrel with a man whom
she said came to him demanding \$25.
She said the money was paid to the
man, but she did not know for what pur-
pose, beyond that his wife was sick and
that he must have the money. This
man, the witness added, had threatened
her husband if he did not comply with
the request. When asked if she knew
who the man was she said she did not
know.

She then identified a slip of paper in
the form of a receipt for \$25, which
receipt, Mrs. Wilson said, was given to
Dr. Wilson by the man to whom he paid
the money. The name on the slip was
not made public, but is developed af-
ter the inquest that the man who had
given the receipt to Dr. Wilson had no
connection with his death.

"Crucify Me" Woman Cries—Taken to

Also Crazy by Religious
Frenzy.

New York, July 11.—With his face
scarred in five places by a branding iron,
one of his eyes discolored by a blow and
five rings cut around his throat, six-
year-old Charles Goodall is in Bellevue
hospital under treatment. His mother,
Mrs. Georgiana Goodall, pretty and re-
fined and twenty-six years old, and her
mother, Mrs. Mary Coaler, fifty-three,
are in the hospital, psychopathic ward
prisoners under observation, suspected
of suffering from religious mania.

The women are under the particular
observation of Drs. Holmes and Greg-
ory, and the former stated yesterday
afternoon that the case bade fair to
be one of the most remarkable on re-
cord in the history of the hospital.

The boy asserts that his mother
branded him. She admits it, and told
the police of the West Sixty-eighth
street station that she did it because
the end of the world is imminent, that
her boy is to be the Messiah, and that
she did not wish him to be mistaken
for any one else when the day of res-
urrection came.

"He is to be the new Christ," the
woman said, "and when he rises from
the dead I want him to be known by
the marks I have put on his face and
neck."

APPEYARD CASE

FAILS AT BUFFALO.

Bill Against Boston Man in German
Bank Suspended Dismissed.

Buffalo, N. Y., July 11.—Justice White
in the supreme court yesterday, on ap-
plication of Henry W. Killean, special
deputy attorney-general, dismissed the
grand larceny indictment found against
Arthur E. Appleyard of Boston in con-
nection with the failure of the German
bank here some years ago.

Mr. Killean said that the death of
Richard Emery who was president of
the bank when it failed, made it practi-
cally impossible to obtain a conviction
of Appleyard. Furthermore, Appleyard's
offer to the depositors to settle
all civil and criminal liabilities against
himself on payment of \$10,000 is to be
accepted by the depositors.

Inquiry at the home of Mr. Appleyard,
1774 Beacon street, Brooklyn,
yesterday afternoon revealed the fact
that he has been in Wisconsin for the
past month.

Atty. Fred H. Williams of 53 Tremont
street, who represented Mr. Appleyard's
interests in Boston, said yesterday
wherein informed of the action of the
court:

"This ends proceedings which have
been pending since the collapse of the
German bank in December, 1904. Shortly
after the bank suspended the indictment
was found against Mr. Appleyard."

2 to 1.

Oyster Bay, N. Y., July 11.—Secretary
Loeb yesterday received a letter from
a former Democratic United States
senator, who said that he had written
to Chairman Thomas Taggart of the
Democratic national committee offering
to bet \$10,000 to \$5,000 that Taft would
be elected, and the same odds that Bryan
would not carry New York state. Mr.
Loeb refused to give the former senator
the name.

President Roosevelt has received a
unique invitation to attend the Alaska-
Yukon exposition to be held in Seattle,
Wash., next year. It is made of white
leather in the form of a lantern with

United States Judge Reid of Seattle
brought the invitation to Oyster Bay
and left it with Secretary Loeb. The
president will not attend the exposition,
as he will then be hunting big game

THE N. D. PHELPS CO.

TO RELIEVE THE FARMERS

Of Embarrassment in Matter
of Adequate Help

AN EMPLOYMENT BUREAU

Smallpox Is Losing Its Terrors, It Is
Reported to the Government—Lot-
tery and Prize Contest
Promoters Hiding.

Washington, D. C., July 11.—Through
the department of commerce and labor
and the post-office department, Sec-
retary Strauss and Postmaster General
Meyer have inaugurated a plan of service
which will relieve farmers and others in
this country from further embarrassment
in the matter of procuring adequate
help. The details are being promulgated
through the division of information, bu-
reau of immigration and naturalization,
department of commerce and labor, and
Assistant Postmaster General DeGraw,
through the rural delivery service.

The plan is original to this country
and contemplates a general distribution
of admitted aliens and other persons
seeking employment. In that view, there
are being forwarded to postmasters
throughout the United States packages
of cards, with return attachments, for
distribution to farmers and others who
are likely to need the services of farm
and common laborers, or mechanics, and
who may obtain the character of help
required by mailing the return informa-
tion card, properly filled out, without
payment of postage.

For this valuable service, no charge is
to be made, or fee accepted, either from
employer or employee, and the officers
entrusted with the work will exercise
every possible precaution in selecting men
and directing them to destination, in
cases where labor is not needed at the
particular time, the applications may be
retained by prospective employers for
future use.

The work of selecting suitable persons
to serve in the several fields of labor
covered will be given special attention
by experts designated by the depart-
ment of commerce and labor.

Washington, July 11.—No longer is
smallpox to be dreaded as a fatal dis-
ease, but is to be regarded as one in
which 499 out of every 500 victims will
recover. Such is the information pub-
lished by the marine hospital and pub-
lic health service. During the past six
months, 23,544 cases of this disease were
reported to the service. Out of this
large number only 56 died.

Minnesota is credited with being the
banner smallpox state, having 5,203
cases reported. In all that number there
were only 6 deaths. Texas has some-
thing of a record along the same line,
3,080 cases being reported from there,
and only 1 death. The third state is
Kansas, with 2,332 cases and 3 deaths.

New York had 831 cases and no deaths,
while Pennsylvania reports only 11 cases
and none fatal. Illinois came in with
1,739 cases, none fatal; and Ohio with
533 cases and 3 deaths.

Washington, July 11.—Lottery and
prize contest promoters are running to
cover under a sharp campaign now being
conducted against them by the post-
office department. It is estimated that
the close scrutiny now exercised over all
publications has resulted in the exclu-
sion from the second-class privilege of
periodicals aggregating 25,000,000 circula-
tion. These were all cheap publications,
bulging with "free" offers and
prize contests akin to lotteries.

The department is also demanding a
stricter compliance with the second-class
rules in regard to requiring paid-in-
advance subscriptions before admitting to
entry.

In another branch of the department,
post-office inspectors are busy watching
advertising fakirs. The assistant attor-
ney general's office is the mecca of all
newspaper men in the capital just now,
because there is hardly a day that several
fraud orders do not appear.

Among all the varieties of fake un-
covered by this branch of the service,
by far the most plentiful is the astrologi-
cal, the psychological, clairvoyant, or
seeress fraud. These are the folk who
advertise a complete individual life-read-
ing "from the stars" for a sum sum—
claiming an individual horoscope, etc.

What the department objects to is that
these fakirs have horoscopes for sale,
and dish them out according to the
birth date of the applicant. Also, in a
good many cases, the same string of
generalities about temperament, love
affairs, and so on, appears in each horo-
scope.

Sometimes, the inspectors have also
discovered that the learned advertiser
does not know an astroble from a Ply-
mouth rock rooster.

Washington, July 11.—Agitation for
removal of the tariff on wood pulp,
denunciation of the chimera of a paper
trust, protestations on the part of manu-
facturers of the growing scarcity of wood
available for paper making, all call at-
tention to the fact that the materials
for thousands of miles of paper annually
go to waste in America.

A practical paper-maker recently called
attention to a few of the sources of
enormous waste, when speaking of the
number of materials in America's
refuse heap which are worth while con-
sidering as promising substitutes for
wood pulp.

TRADE A LITTLE BETTER.

But Bank Exchanges Show a Great
Decline From Last Year.

New York, July 11.—Despatches to
R. G. Dun & Co., indicate a little bet-
ter trade situation and more promptness in
collections. Extreme heat reduced
wholesale business in Boston somewhat,
but stimulated trade in seasonal
specialties. Dry goods jobbers have an
excellent trade in staples, but cotton
mills still curtail outputs.

Bank exchanges this week in leading
cities of the United States aggregated
\$1,931,800,760, a decrease of 28.3 per
cent, as compared with 1907.
